Unfortunately the proposed agreement will not work for me.

Non-negotiables:

1. All parties need to be let out of the lawsuit. Jen has not been let out yet.
2. Attorneys fees need to be paid in full by the org.

Until those two non-negotiables occur, I must retain all my rights. A lawsuit against Katie could take several years to recover funds. The org should have done better research before filing a lawsuit against a bunch of single mothers. I will not continue to take on the financial loss due to the poor choices of others.

The orgs lawsuit against Unsilenced does not involve us. While we will help to hold Katie accountable, we will not play her games and rewrite history trying to beat her. The org has a great lawsuit for contract claims, conversion, theft, etc. But our claim against Katie is closer to RICO charges and more about harassment, stalking and collusion. The org was created after we were removed, we have never been apart of it.

Accountability has to occur in the first case before we can move on. Actions need to back up words at this point. In my mind, BCS is already dead like the ACCA. This current offer does nothing for me.

Also I will never sign a confidentiality agreement. I have been under gag order before and I have made a personal promise to myself that I will never do it again.
